day in each month. Visiting brethren
welcome.
CHAS. MCLEAN, E.P. CRAWFORD
W.M. R.S.

No Paper Next Week

Owing to the editor and staff taking a holiday there will be no Chronicle issued next week.

Champion Celebrates Dominion Day in Very Real Style

Over One Thousand People Attend Ball Tournament and Sports and Thoroughly enjoy Splendid Programme.

The baseball tournament and sports held in Champion on July 1st was the greatest success achieved in this line for some years, indicating that a holiday is the ideal time for putting on such a programme. From an early hour it was evident there was going to be a big attendance and when the baseball game between Alston and Champion Juniors got under way at 11 o'clock the town was filled with people and there was a fair attendance at the grounds. A spirited game resulted in a score of 10-12 in favor of Champion.

Headed by the band the big crowd moved to the grounds at one o'clock, and with the exception of a delay caused by Milo being late, the programme was run off without a hitch. Milo lost to Stavely by a score of 6-0, but Plant, pitching for the losers, deserved better results as he struck out 15 men. Errors behind the bat and in the field were responsible for all the runs.

Of the foot racing, which followed, no record was kept by the judges and in consequence these results are omitted, but there were lots of entries and a real race in each event.

The tug of war between Harmony and Alston was won by Harmony, a much heavier team contributing to the results. Prize, a box of cigars contributed by E. Latif, were shared by the contestants.

The horse racing proved to be a great attraction and the big crowd was able to follow them almost without changing position. The results were as follows:

Free for All—1st Andrew Anderson, 2nd Orville Smith.

Relay Race—1st H. Williamson, 2nd Andrew Anderson.

Pony Race—1st Orville Smith, 2nd Wayne Anderson.

Slow Race—Donald Bond.

Rain delayed the finish of the bucking contests but the crowd was not to be denied and stayed through rain and shine to a finish.

Following are the winners in the different events:

Best Rider—1st Kennedy, 2nd Philpott.

Best Horse—Philpott.

Steer Ringers—1st H. Williamson, 2nd Kavanaugh, 3rd Caron, 4th Cressman.

At six o'clock the final game in the baseball tournament was played between Champion and Stavely, the batteries being La Forge and Moosner, Siler and Allen, respectively. The score in this game was 3-1 in favor of Stavely, some nice ball being played.

The refreshment stand and midway attractions were well patronized throughout the day and were evidently duly appreciated.

A feature of the day was the playing of the band under the leadership of Barney Hunneman. The majority of the musicians were boys whom Barney has trained and it will be but a short time until Champion will have a band equal to the best.

They were not in the least stung by their selections and their efforts were highly appreciated by the spectators. Champion has every reason to feel proud of the band.

In the evening the dance in McCullough's hall and the picture show were the attractions and both were well patronized, the rain, which was particularly heavy about 10 p.m., rather adding to than lessening the enjoyment of the occasion.

It was a great day and it is to be hoped will be repeated another year.

Thief Loots Cash Registers

Some time between Saturday night and Monday morning the cash registers in the Meat Market, Stevenson's grocery, Hoskins' hardware and the Drug Store were rifled of the small change left in them on Saturday night. Back doors were used to gain entrance with the exception of the drug store where the front door was used. The thief secured something under \$20 by his efforts, but as far as is known took nothing else. This experience should be a warning as to the inadequacy of the door fastenings in use. The thief left no clue as to his identity.

New Pastor Is Inducted

Rev. Mr. Hunt, of the United Church, was formally inducted on Friday evening last at the church, a fair number of the congregation being present to welcome the new pastor. Rev. Branton, of Vulcan, was in charge of the induction service and Rev. Letts, of Blackie, addressed the congregation and the new minister, Mr. Hunt responding. Miss Ella Stephen was at the organ.

Crop Conditions Are Excellent

All grain has made very rapid progress during the past week, rain and warm weather forcing an exceptional growth. Many pieces of wheat are in head and all the early sowing will be fully headed out in a few days. Estimates as to yield vary largely but the general impression favors a medium number of bushels per acre rather than a bumper crop.

Those in charge of the program on July 1st are to be congratulated on the manner in which it was run off. The preparations for the event, too, were in capable hands, as was easily recognized by all.

Harvesting machinery is now in demand. How the seasons do roll round!

Hot Weather Is Right

but if you wear **Hatchway's No-Button B. V. D's** you do not feel the heat near so bad.

Hatchway Underwear

is light weight, made roomy and of a nice cool material.
Drop in and look them over. Carried in three different summer weights. No extra cost.

This Week Get Your Raspberries

for preserving, also **Sour Cherries**.
Leave us your orders and you will not be left

THURSDAY, JULY 8, 1926

NOTES AND COMMENT.

The political upheaval at Ottawa may be in the interests of some party or parties, but it is very far from being in the interest of the country at large. Out of the muddle the Conservatives have gained control, but in order to profit this will be a short time. Then will another general election be held, and even the result of this may still leave an impossible situation. The opinion has been very freely expressed, particularly in Conservative quarters, that the legislation enacted in the present session was noticeably favorable to the progressive element. If such an assumption is anywhere near correct it would appear the Progressives have deliberately abandoned their outstanding opportunity to easily advance their own policies. They may possibly retain control of the house in another election but there is no remote possibility that they must not work in accord with one party or the other to accomplish anything. In the present instance they have repudiated both Liberal and Conservative rule, and friction in their own ranks has resulted. The situation is not hopeful. A higher tariff wall between Canada and the United States does not seem desirable for western interests, but anything like a continued deadlock may finally result in the acceptance of this handicap in order to secure stable government.

This session's budget was popular all over the west and it should be difficult in the future to convince anyone that higher duties would mean anything but higher taxes. Taxes, both Dominion and Provincial, have been very high and any tendency to relieve the burden could scarcely fail to be acceptable. Still having just unanimously elected a government in this province that has consistently added new taxes and retained all the old ones, increased Dominion levies should not be regarded as serious.

The splendid rain the night of July 1st was timely, even if it did interfere with the sports' programme. A great deal of the crop was near to heading out and plenty of moisture and moderate weather was very desirable. Prospects of a fairly good crop are excellent and everyone is pleased in consequence.

The celebration of July 1st was an undoubted success in every way and there is every reason to believe everyone promoter or spectator, was satisfied with the result. Even the slight interference from the rain that was over-looked in the fact that it was needed for more important reasons than sports.

Champion has decided to play no more ball this season, with the exception of returning

games with those who have played here. The decision was undoubtedly wise under the circumstances, as the team was not strong enough for the company they were playing in.

There has been a veritable plague of moths recently, or as they are popularly known "millers." They seemed to be able to get into a house in spite of screen doors and windows, and when a lamp was lighted with a complete mixture, just what kind of worm will make its appearance. The caterpillar does not appear to be a matter of general knowledge, but whatever kind it may be there will be lots of them if they correspond to the number of moths.

When Luther Burbank, the late plant wizard, perfected the spineless cactus, a lot in Santa Barbara owned by S. G. and J. L. Kelley, was planted to the new growth and thousands of persons marvelled at the plant that grew without thorns and was bearing delectable pears. In the last few years, since Mr. Kelley's death, spines have appeared on the cactus, and recently the city of Santa Barbara served notice on the owners of the patch to destroy them as weeds. Those who believe in the supernatural are speculating as to whether the plant wizard's passing has anything to do with it.—Ex.

Between Banff and Calgary a good share of the population of Champion is out of town and as a result a quiet time is being experienced. The district, too, is well represented in the city.

Mosquitoes have made things lively since the rains. Fortunately they are a wet product.

Forecasts All
Winter in 1927

Nineteen twenty-seven will be a return of 1916, "the year without a summer," a growing season with marked crop failures throughout the whole northern hemisphere, and it will become necessary for the nations of the world to use their war powers to conserve food and protect their populations from starvation, according to a forecast made by Herbert Jaunin Browne, American meteorologist and long range weather forecaster, before 500 students attending a four day session of the college of scientific forecasting which opened in Chicago.

"The same oceanic changes that prevailed 10 years ago see now in evidence," he said. "We will have the severest winter in 1926-27 ever known on the North American continent. America is practically surrounded by cold water and will be for the next year."

He bases his forecasts on the changes in the amount of heat given off by the sun and absorbed by the salt waters of the ocean. "It has taken since the beginning of 1922 for the northern Pacific area to exhaust the momentum of the sun's heat which began to drop five years ago.

"Cold air will come into the Canadian Northwest and deep into the United States next winter and in 1927 from the Arctic and Behring seas. Cold will also come from cold waters which now extend from California to the Hawaiian Islands."

Despite the fact that officials of the United States weather bureau claim that there is no scientific principle known whereby weather can be forecast accurately more than 36 hours in advance, Mr. Browne finds plenty of evidence in the ocean to indicate a "summerless year" in 1927 and predicts a repetition of the year when farmers broke ice here at Fort Dearborn to water their horses on July 5, 1816.

He also predicts that within five years Lake Michigan's level will be restored to the mark at which it was before the drainage canal was opened, as the result of increased rainfall.

PUBLIC INSTITUTIONS

Galt Hospital, Lethbridge

First-class Hospital Service at reasonable rates.

Private, Semi-Private, and Public Ward accommodation for surgical and medical cases.

Separate Case Room for obstetrical purposes.

Try a Want Advt.

Practice True
Economy

The man who allows farm implements and buildings to run down is wasting not only time but actual loss in dollars.

A few dollars wisely spent will save you twice the amount later for replacement, depreciation and labor.

Raw Linseed Oil Has Many Important Uses

It is invaluable for your live stock. It is a wonderful protection for your granaries and farm buildings against the ravages of the weather.

The life of your implements, wagons, eveners and singletrees can easily be doubled if you keep them well oiled and treated.

Binder canvas will last several years longer if saturated with raw linseed oil.

Do You Know?

Fence posts untreated last about 4 years. Fence posts treated last about 20 years.

Pipes and galvanized iron will last indefinitely if treated with our structural paint.

Roofing must have its coating of preservative paint if it is to last and give service.

Start now to economize by getting long life and service out of your implements and buildings.

Tiffany Bread Wraps Create a Sensation

There's quite a stir in the baking industry over the new Tiffany Bread Wrap.

The secret of it is the fancy lace pattern in the wax paper that bespeaks higher quality—and the fact that the lace design hides folds or creases in the wax, keeping the loaf from looking.

The beauty of this wrapper makes an instant appeal to the housewife.

Each wrapper is an effective selling force wherever the bread is displayed.

Write for samples and prices to-day.

Holiday In Canada

Taking a holiday is "good business," provided the holiday is spent in a sane, sensible manner and largely out of doors. Such a holiday is likewise a form of Good Health Insurance. Money spent in a vacation in the open will prove a good investment and return handsome dividends in renewed vigor, increased energy to put into one's life work, and reawakened enthusiasm about one's work and all the other things in life.

To the full extent possible, people should spend the summer months in the open. Fresh air and sunshine are the best doctors in the world. They are doctors of preventive medicine and make no charges for their services which are free to all mankind, rich and poor alike. "Summer holidays" to be most beneficial should not be spent in visiting crowded cities, but in the more healthful lakes, rivers and the sea, among the mountains—in a word, near to Nature's heart.

And no country in the world surpasses Canada as the ideal land for a summer vacation. People, who can afford to do so, may flock to tropical countries during severe winter weather, or enjoy winter sports such as are provided in Switzerland and Eastern Canada, but for all-round enjoyable and health-giving summer holiday, no country surpasses and few can equal our own Dominion.

In the variety and beauty of its offerings, Nature was most prodigal in its treatment of Canada. Nor did she confine her gifts to any one Province or section of the Dominion, but with lavish hand distributed bounties on all. There is no place to appeal to every taste and every desire.

Furthermore, probably in no other country can a vacation be enjoyed at less expense than in Canada.

For a real holiday, a person needs a complete change of scene and an entirely different environment to that in which ten or eleven working days are spent. In many of the older and thickly populated lands this is difficult to obtain without traveling long distances and at a cost exceeding the average vacation. In Canada, however, a vacation is possible in a few hours away with its great wealth of rivers, lakes, forests, mountains, woods and seashores. Canada still remains a land of romance, a sportsman's paradise, with shoulelding natural beauty to inspire the poet, the artist, the lover of the wild. And these things are available to Canadians within the bounds of their respective Provinces.

But the cost of a vacation in the West can at small expense obtain the enjoyment of all these in his environment by spending his or her holiday in the Rockies, or journey a little further and bask among the beauties of Nature along the Pacific Coast, or proceed eastward to the Great Lakes. People of Ontario and Quebec might well with advantage to themselves, and in real service to all the world, undertake to inform the people of the great opportunities for a summer holiday, with the holding forth of these two Provinces and the Maritimes could with pleasure and profit interchange visits.

If Canada lacked in providing scenes of Nature's beauty, or if these spots were few and far between and therefore difficult and expensive of access, there would be some excuse for Canadians to be loafing at home and losing the benefit of great position, but, as all know, the Canadian is a hardy, second place to none as far as willing to enjoy Nature at his best, in which to recuperate in mind and body, forget one's business worries and responsibilities, and restore were out and jangled nerves.

Canadians, of course, must not be narrow, provincial people. They should know the world, and to know other countries and peoples is necessary to the development of the nation, and more than half of the advantages to be derived from foreign travel is found in first having the fullest possible knowledge of one's own country. "See Canada First" is, therefore, not only a calling slogan but good advice to all Canadians.

And while not disparaging the beauties and exhilaration of Canada's winter, it is none the less true that the summer vacation months offer the best time in which to visit all parts of the Dominion and learn of its beauties, its resources, its grandeur, its transcendent possibilities.

Purchases Exceed Sales

Russia Buys More From Great Britain Than She Sells

The council of the Russo-British Chamber of Commerce has published a report showing to have steadily increased in trade between Great Britain and Russia.

The growth is given as from £15,660,000 in 1922 to £58,600,000 in 1925. The report says Russian purchases of Great Britain's coal and iron and steel, and of British coal and iron, have increased to make it possible for Russia to buy more from Great Britain, and more than half of the advantages to be derived from foreign travel is found in first having the fullest possible knowledge of one's own country.

The council points out that the entire business has been conducted on a credit basis and says it is not aware of any case in which the Russian organizations have failed to carry out their obligations.

Statistics enable a man to prove anything except the truth of the figures.

Better Gasoline Promised

May Mean Increased Efficiency and Automobile Operation

Increased efficiency and economy in automobile operation are forecast by government experts as the result of recent motor fuel studies by T. S. St. John, of the U.S. bureau of standards.

The organization has been instrumental to make it possible for refineries to produce, by an easy grade of refinery supervision, a more uniform, dependable gas without increasing price.

Reactive Powers Of Fish

Frozen Sells By Liquid Air Will Revive In Water

An audience in New York was treated the other night to an exhibition of the recuperative power of fish under freezing conditions. Professor J. W. Barnes, of the City College, took a fish frozen from a bowl of water into a jar of liquid air, two goldfish. Upon removing them frozen, one was shattered into brittle fragments by a hammer. The other, returned to the water, soon swam about naturally.

Poland Not Leaving League

Reports in Geneva that Poland was considering withdrawing from the League of Nations unless her demand for the return of the Polish Corridor was granted, were denied by Auguste Zaleski, foreign minister.

Some men are willing to pay cash for everything except their debts.

Hindus Worship Midnight Sun

Pilgrimage Will Be Made To Norway Every Year

In the pale mystic rays of the midnight sun at 2000 feet above sea level, which huts on the Arctic Ocean as the northernmost point of Europe, a small party of high caste orthodox Hindus recently worshipped their deity through the symbol of the ever-shining sun, which to the Hindus becomes the emblem of physical glory and their deity, the spiritual sun.

The party of worshippers consisted of Rai Golapdas, son of the Hon. Rai Ranasara of De Lalpur, British subject, and his son, who is a high caste Brahmin, former director of Oriental research at Kasimir and once head of the ecclesiastical administration of the Gaekwar of Baroda.

If the intention of the Hindus is carried on a similar pilgrimage to North Cape each year.

Pain in the Back**Yields to Nervine**

If you have failed to secure relief from other remedies, try on lots of good "Nervine"—the strongest, most penetrating pain-relief on the market. It is the secret to drive out the big ones. It's because every drop of "Nervine" has the power to sink in deeply that it drives away pain that ordinary oils, ointments, salves, etc., cannot. Large quantities at all dealers.

Are Commercial Vegetable Oils

A company with a capital of nearly a quarter of a million dollars has been formed for the purpose of catching sharks and exploiting them commercially, to yield oil, gelatin, leather, and shoes, oil, meat, fertilizers, animal fodder, sulfur, wax, for the manufacture of soap, dye, petroleum products, greases and polishing materials.

WEAK AND NERVOUS**A Condition Due to Watery Blood — Easily Corrected Through the Use of Dr. William's Pink Pills**

Thin, pale girls lack the power of resistance to disease; rich, red blood girls are the sturdy, robust. So is it with the human body. GOVERNMENT IS DEFEATED BY ONE VOTE ON MOTION

Ottawa.—After only a few days of debate, the McLean government was defeated in the house by one vote on a formal motion challenging the right of the acting ministers of the McLean government to sit in the house, moved by Hon. J. A. Robie.

Progressives last voted with the McLean government in previous divisions sent it to defeat. Attendance in the house was comparatively slim, the government being in the negative.

There were 17 Progressives in the house for the division. Fourteen voted with the Liberals and three with the government.

The 14 who voted with the Liberals were: Miss MacLean, Messrs. Coote, Brown, Galt, Galt, Rivers, King (North Huron), J. E. Evans, Mr. Spencer, Gardner, Beaumont, Steelman, Miller, Parks.

The three Progressives who voted with the government were: Messrs. Lutes, Bannister and Fawcett.

Four Progressives who in the last division voted with the government, now voted with the opposition and thus brought about the defeat of the government.

The three Progressives who voted with the government were: Messrs. Coote, Gardner and Beaumont.

This is the first occasion since Confederation that a government has been actually defeated in the house on a motion involving non-confidence. The three occasions previous to this one, the King government found itself on the losing side in the house divisions.

Grain Act Amendment

Bill Is Discussed At Length in the Senate

Ottawa.—The Senate, the second chamber of the Canadian Parliament, last night adjourned at 11 o'clock after a long session on the bill.

The bill, which would give the government power to regulate the grain trade, was introduced by Hon. J. D. Reid, minister of agriculture.

During debate two amendments were proposed. One would provide that the bill will come into force on proclamation of the government's consent, and remain in force for a period not exceeding one year from the date of proclamation.

A second amendment which was proposed states:

"Any grain pool shall be empowered and is hereby empowered to purchase from any elevator company one or more country elevators at any shipping point at which such pool has no elevator, and in case there are more than one, the highest price of such elevators and such pools are unable to agree as to which elevator or elevators the said pool shall purchase, then and in that event, the board shall decide which elevator or elevators the said pool shall purchase and in case, however, or owners of such elevators do not agree upon and the pools are unable to agree as to price and terms for such elevators or elevators, then, the price and terms shall be determined by arbitration in accordance with the provisions of any act relating to arbitration in cases in the provinces wherein such elevators or elevators are situated."

New Red Lake Strike Reported

Said To Be As Good As Any Yet Discovered

Toronto.—A special dispatch to the Toronto Star from Hudson, Ont., reports a new strike at Red Lake.

The report states that this was the third strike in the mining camp and that the find is on what is known as the Bill Smith group, a mile east of McKenzie Island. Vines are said to have been uncovered as good as anything yet found at Red Lake or White Bay.

The Star says: "A number of average channel samples from this property assayed from \$9 to \$2 per ton for gold, with an equal quantity of silver."

Fenian Raid Veteran Dead

Ottawa.—Lieutenant-Colonel Archibald McLean, Fenian raid veteran, died at his residence, Willowmore, near Ottawa, this morning at Pendleton, Ont., the youngest son of Hugh McLean, who was a factor for the Hudson's Bay Company and a pioneer of the city of Winnipeg.

Miners Stand Pat

London.—The miners' executive committee, after reviewing the coal situation, determined to stand by their decision to resist any increase in hours or reduction in wages.

Predicts Industrial Activity For Canada

C.N.R. President Advises People To Stay in Canada

Montreal.—A Canadian Statesman, a great railway man in Canada who was one of the greatest empire builders, few men having done as much for Canada. If I can make a slight application to the work I shall not have lived in vain."

So declared Sir Henry Thornton, president of the Canadian National Railways, speaking at a banquet of the American Railway Association here.

Thornton's speech was a harmonious experience in Montreal of two great races, and also to the fact that the United States had for many Canadians drawn thicker than the Atlantic Ocean.

He foretold prospective embarrassments, however, that theirs will be the advantage if they stay at home and are content to look ahead to the future with the best of wills.

"Things are going to happen in Canada in the next ten years," he stated emphatically, "for Canada to be on the threshold of great industrial activity."

Austria Confident Of Financial Prosperity

Country Has Had Hard Struggle Since Armistice

Venice.—War in the Balkans will be the last thing Austria would want to have in her rear, we have no essential minorities, we seek to recover no lost provinces. We only want to live and be useful."

One of the greatest Vienna bankers, Dr. Max Koenig, said: "It is a cultured, peace-loving man of the old days of the dual monarchy when the banks of Vienna competed with London, Berlin, Paris, Frankfurt and Munich."

"Austria has struggled hard and successfully for the armistice," he said. "We have had repeated setbacks and difficulties, but we have come back to task each time and always it has been proven that there are no artificial difficulties, only temporary ones."

The depression followed us all through last year. Although our unemployment continues to increase, I believe that now we have turned the corner, although we face tremendous difficulties."

Bitter Verbal Clash In British House

Labor M.P. and Secretary of Mints in Dispute

London.—Another turbulent scene in which Joseph Westwood, Labor member for Midlothian and Peebles, threatened personal violence against Sir George Curzon, secretary of state for India, occurred in the House of Commons when debate was resumed on the government order which would permit coal miners to work eight hours a day instead of seven as at present.

Mr. Fox, Labour spokesman on coal mining, who had previously attempted to take a cool off and throw it at Col. Fox—*"If I cannot get anything else."*

The Labor member was deeply mortified by a remark which he thought reflected on the courage of his menfolk.

Find Ring In Grain Car

Lost Last Fall In Wheat Separator Near Findlater

Regina.—Some time last September on Ed. Findlater's farm, one from Findlater, J. M. Robie, the C. S. Co. representative, lost a ring while examining wheat in a grain separator. The ring, which cost \$2.12, was recovered the following from the N. M. Patterson Grain Co., Winnipeg.

"Dear Sirs—We are today in receipt of a wire from our Mr. Greville Williams, asking if you have found a ring No. 345419 which was shipped by you from Findlater. Do you know anything about it? If you do communicate direct with him at Fort Williams, care of N. W. Patterson Co."

A few days later the ring was back to the owner.

Cow Breaks Milk Records

London.—The Canadian Cattle Breeders' Association announced that Nellie Osborne, of Elm Shadie, owned by W. C. Wylie, Glen Elm Farm, Howick, Que., has broken all former records for milk production in Canada. The animal set a record of 355 days in production and 21,241 pounds of milk and 96 pounds butter fat, which far outdistances the production of any other cow of the breed.

For Clean-up of Customs From Coast to Coast

To Carry Canada's Products Abroad

The new refrigerated S.S. "Cairnsmore," just launched at Sunderland, England, is one of the two new sister vessels specially designed for the Canadian Trans-Atlantic service with the northeast coast of Great Britain and Canada.

The carriage of perishable foodstuffs from this country to Great Britain is a most important function of this service. The "Cairnsmore" equipment embodies the most modern facilities for refrigeration, ventilation and carriage of perishable goods.

Is Again Premier

Hon. Arthur Meighen, who has been called upon to form a new government at Ottawa.

FARMERS' PARTY OF ALBERTA TO REMAIN IN POWER

Calgary.—Premier J. E. Brownlie has been returned to power at the head of the United Farmers of Alberta, and will have an unopposed majority in the legislature.

Liberal returns came slowly yesterday and tonight due to the arduous task of counting the returns in the rural areas of the representation system.

In quite a few cases several days will elapse before returns can be definitely declared.

Ice Cream, Fruits and Vegetables in season.

Tobaccos, Cigars, Cigarettes, Pipes, etc.

Give Our Meals a Trial

Elsewhere in this issue is published a prophecy in regard to a summerless 1927. There are so many weather prophets and their prophecies vary so much that most people will prefer the statement of the United States weather bureau in that there is no scientific method of forecasting weather conditions for more than thirty-five hours ahead, and this without serious prejudice to local forecasters. The man who forecast a summerless 1926 is not advertising the fact just now.

W. S. Gorsche left town in a new Willys-Knight automobile purchased from A. Kramer.

**Cheap and Effective—
A Want Ad.**

Strayed

Oh! Yes You Can

You can always tell a barber by the way he parts his hair. You can always tell a dentist when you're in the dentist's chair.

And even a musician— You can tell him by his touch. You can always tell a printer, But you cannot tell him much. —The Paper Book.

Local and General

Found—Crunk for car. Looks like McLaughlin. Owner call at Chronicle office.

D. W. Harper and family left for Banff on Sunday, where they will camp for some weeks.

Mr. and Mrs. Carl Johnson and son, Bernard, left for Seattle and other coast points last week.

Guess as to the date of the date of the coming Dominion elections center around September 10th.

Fred Clever and family left for Calgary on Sunday, from where they will go to Banff for a holiday.

Hay cutting is in progress on Anderson Bros. farm this week, and at several other places in the district.

Alarm clocks with a positive guarantee. See our line of "Time Tellers," in three sizes, W. C. Hoskins.

Lost—A crepe de chene scarf, on Main St., Champion. Finder please phone G. F. Smith or leave at Chronicle office.

"With all our troubles we probably have more individual happiness than anywhere else in the world." Robert Forke.

Mr. and Mrs. W. C. Fry and family arrived here on Saturday from Grandview, Wash., and will spend their holidays here.

The display of flags on July 1st was gratifying. Observance of such details on holidays goes a long way in emphasizing the occasion.

Evangelical Lutheran church services will take place again next Sunday afternoon at 3:00 o'clock. You are welcome to take part.

Mr. and Mrs. Courtney, of B.C. were visitors over the week end with Mr. and Mrs. E. F. Crawford, leaving with them on Tuesday for Banff.

Mrs. Guy Stanish spent two days in this vicinity last week, leaving for Calgary on Saturday. She was with a party en route from Seattle to Banff.

Rev. and Mrs. Hunt leave this week on a two months' vacation which will be spent at Lumbeth, near London, Ont., the point of their nativity.

George Rhodes has always been recognized as the prize rooster in this vicinity, but on July 1st Alva Baker gave him a close run for honors in this respect.

The flies are out with them specklers and the mosquitoes are looking for blood. We have screen wire, doors and fixtures to keep them on the outside.—W. C. Hoskins.

Miss Vesper Maynard, a former resident here, was married on July 1st at Los Angeles, Cal. The bridegroom's name was omitted by The Chronicle correspondent.

Joe Mark left on June 30 for Sylvan Lake to camp with the C.S.E.T. boys. Joe has been there before and anticipates a splendid time. He will be away for two weeks.

John Oliver, father of Rev. J. W. Oliver, who has spent the last three years in Champion and Bellevue, left recently for his old home in England, where he will reside in future.

Rev. R. J. and Mrs. Mossman are making a trip over the Banff-Windmire highway this week. They will take in the stampede at Calgary on Friday, returning to Champion on Saturday.

W. S. Gorsche, en route from Rochester, Minn., to his home in Vancouver, stopped off here for a few days, visiting his farm and renewing old acquaintances. He left for Calgary on Wednesday.

McCullough Bros.

Local and General

W. S. Ryan spent the week end in Calgary.

G. M. Campbell left for Calgary on Tuesday.

G. F. Smith has purchased a new Essex car from A. Kramer. Tourists have been considerably in evidence lately passing through town. Better roads would bring the big volume of tourist traffic in this direction.

Dissolution of parliament left 48 unhappy couples without a divorce. Thirteen of the divorce bills had already passed both houses of parliament and were awaiting royal assent. Thirty-five divorce bills had passed the senate and were still in the committee stage of the house. So far as can be seen at present there is no way in which even the thirteen bills which have passed both houses can be made law. Royal assent can be given only by the governor general or deputy governor general in the presence of both houses of parliament, and, till the general elections, the house of commons does not exist. The view in official circles today is that the applications will have to go through all stages in the next parliament. One hundred and four other applications for divorces were more fortunate. Their bills passed through all stages in both houses and received royal assent some weeks ago.

The flies are out with them specklers and the mosquitoes are looking for blood. We have screen wire, doors and fixtures to keep them on the outside.—W. C. Hoskins.

Miss Vesper Maynard, a former resident here, was married on July 1st at Los Angeles, Cal. The bridegroom's name was omitted by The Chronicle correspondent.
